Delinquent Account Payment Arrangements Policy

Date: _____

All delinquent account holders will be made to fill out a Payment Arrangement and will be held to that arrangement for the necessary time for such debt to be paid in full. If this arrangement is broken in anyway any and all arrangements previously agreed upon will become void and the service will be discontinued and the payment will be made in full before rendering further services.

There will be a \$100 dollar service fee included in the delinquent amount.

The arrangement will be 30% of the total bill overdue up front, to be paid by cash or money order.

The customer will then pay an additional \$100 on top of the current months bill each month on time. Any late payment or insufficient payment will constitute the voiding of this arrangement.

The customer will receive a receipt and a copy of this agreement.

As the customer responsible for this bill, I _____ will

pay _____ upfront and continue to make timely payments each

month to include an additional \$100 on top of the current monthly charges. I understand that

any late payment or insufficient payment will void this agreement and result in the immediate

discontinuation of service and the requirement to pay the full remaining balance on this

account to regain service to this account. The customer also acknowledges the receiving of a

receipt in accordance with these charges.
