

L&F Water Association, Inc.

METER POLICY

The current meter policy requires one meter per residence. In the event it is determined that two or more residences are being served by one meter, the member assigned to the meter will be notified of the violation and given 90 days to correct the violation. An additional flat-water rate (currently \$30.00) will be charged per residence for 2000 gallons of water. Each 1000 gallons thereafter will be billed according to current charges. The member assigned to the meter will be held responsible for total monthly fees. This will be billed monthly until situation is corrected. If not corrected within 90 days, the water will be cut off at the meter.
